

UNIVERSITY OF The Fire Tech

DEPARTMENT OF COMPUTER SCIENCE

Official Program Specification: 2026/27 Academic Year

1. PROGRAM IDENTIFICATION

- **Program Title:** Bachelor of Science (Hons) in Computer Science
- **Duration:** 3 Years (Full-Time)
- **Awarding Body:** Faculty of Engineering and Informatics
- **UFTS Code:** CS2026

2. PROGRAM OVERVIEW The BSc Computer Science program is designed to provide a deep foundation in computational theory, data structures, and modern software engineering practices. The curriculum balances academic rigor with industry-standard technical skills.

3. YEAR 1 CURRICULUM STRUCTURE Students must complete **120 credits** per year. |
Module Code | Module Title | Credits | Assessment Type | | :--- | :--- | :--- | :--- | | **CS101** |
Introduction to Programming (Java/Python) | 20 | 60% Project / 40% Exam | | **MA101** |
Discrete Mathematics for Computing | 20 | 100% Examination | | **CS102** | Web
Technologies & Frameworks | 20 | 100% Coursework | | **CS103** | Computer Systems
Architecture | 20 | 50% Lab / 50% Exam |

4. PROGRESSION AND GRADING

- **Pass Mark:** A minimum of 40% is required in all modules to progress.
- **Honours Weighting:** Year 1 is a foundation year (0% weighting toward final degree classification). Final Honours are calculated as: **Year 2 (25%)** and **Year 3 (75%)**.

5. PROGRAM AIMS

- To develop advanced problem-solving skills using algorithmic efficiency.
- To equip students with the ability to design, develop, and test complex software systems.
- To prepare students for professional careers in Software Development, AI, or Cybersecurity.
